- Dec 14: Breakfast w/Santa at Eaglewood
- Dec 25: Office Closed
- Jan 1: Office Closed

ELECTION RESULTS

North Salt Lakers went to the polls, or rather their mailboxes, for this year's Municipal General Election to fill three City Council positions. Two positions were retained by incumbents, Brian Horrocks and Stan Porter, and Natalie Gordon was selected by residents to fill the third seat. Although Natalie will be a new face on the City Council, she is a familiar face to the City, having served on the Parks, Trails, Arts

and Recreation Advisory Board, and is currently a member of the Planning Commission.

The elected positions in North Salt Lake are at-large, non-partisan positions, representing all residents and all areas of the City.

We appreciate those who participated in running for office as well as the voters who took the time to be informed and involved, and we look forward to working with the new Council.

NSL PARKS & ARTS

Nothing says holidays quite like music! We have two splendid evenings planned for holiday music.

First, kick off your holiday season with the NSL Messiah Sing-in. This cherished tradition invites all to share in singing Handel's master-

piece with your community, friends and family. Please bring your own sheet music if possible.

Then, on December 6th, the NSL Master Chorus will entertain and delight us with a mix of choral and solo/ensemble numbers chosen es-

pecially for the season. Both events are free, but seating is limited. We hope you will join us for these fun evenings at City Hall.

QUEUE CUTTER SIGNAL

New Signal at Center Street

WHAT IS THIS SIGNAL? & WHY IS IT THERE?

Many residents have contacted the City asking about the new signal light on Center Street at the Union Pacific/UTA railroad crossing.

The purpose of this "Queue Cutter" Traffic Signal is to limit the line of waiting vehicles so they are not extending across an active railroad crossing.

At the Center Street location, the two less-used grade crossings west of this site act as a bottleneck that can cause westbound traffic to stack across the busy Union Pacific and UTA rail tracks. Once these smaller crossings are activated, there is no way to clear stacked traffic from the tracks if a train approaches, potentially causing a catastrophic collision.

The queue cutter signal is placed ahead of the UPRR/UTA crossing to keep traffic from queuing up to and across the tracks. The triggers for this signal to turn RED are: **1) vehicle detection west of the tracks, which senses vehicles queuing close to the tracks, and 2) an approaching train on these same tracks.**

The signal will remain GREEN, outside of these two life-safety situations. This project is expected to be completed within the next couple of weeks.

NEW PARKING ORDINANCE

Questions about the new parking ordinance?

A few key points that motorists and residents need to know are outlined below:

- The parking ordinance is now a civil, not a traffic or criminal violation. That means that vehicle owner is liable or responsible for any parking violations.
- Winter parking restrictions are no longer based on date. Instead, motorists will NOT be allowed to park on public streets under the following weather conditions:
 1. During a snowstorm where snow or ice are accumulating; and,
 2. After a snow event until the pavement has been plowed and cleared from edge to edge of the street. This may be a day or two after the snowstorm, depending on the magnitude of the storm.
- Parking any vehicle, any time of the year on a City roadway for longer than forty-eight (48) consecutive hours, or less if there is a sign giving notice of a time limitation is prohibited. This limitation is consistent with Utah State Traffic code and includes trailers, boats, dumpsters, or storage devices encumbering City roadways.
- Inoperable vehicles are prohibited from being parked, stored, abandoned, or otherwise left on any street, park strip, curb, city-owned property or right of way at any time. If a vehicle is “broken down” and must be left on a roadway until a tow truck or other arrangements are made to move the vehicle, this will be considered when the City contemplates enforcement. However, that movement must be within the 48-hour time period. Also, if the vehicle is parked in a manner that creates a safety hazard, inhibits the regular flow of traffic, or prevents snow removal or other roadwork that is occurring, the vehicle may be towed and the owner cited immediately.

NEW WINTER PARKING RULES
CITY OF NORTH SALT LAKE

WINTER PARKING IS NOW BASED ON WEATHER, NOT DATE.

Motorists may not park on public streets under the following weather conditions:

1. During a snowstorm where snow or ice are accumulating on the street; and,
2. After a snow event until the pavement has been plowed and cleared from edge to edge of the street. (This may be a day or two after the snowstorm, depending on the magnitude of the storm.) City Code 6-2-7(F)

See full details at www.nslcity.org.

A few commonly asked questions about the legality of parking on the roadway are also listed below and addressed as prohibited parking in the city ordinance. It is unlawful to park in the following areas:

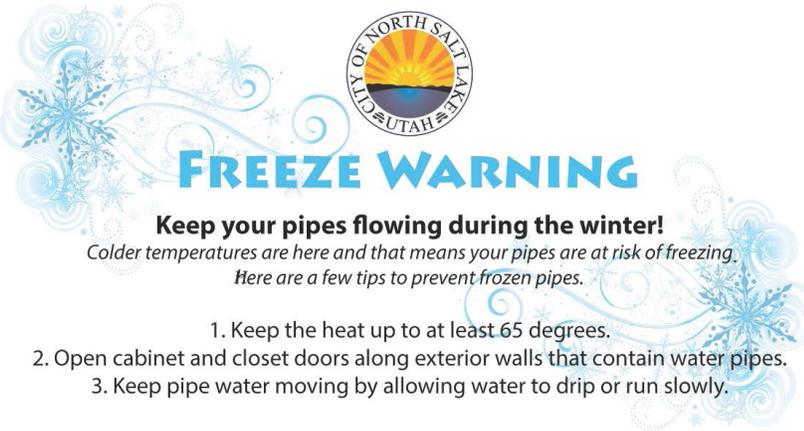

- Within fifteen (15) feet of a fire hydrant. This is enforceable whether there are notices about the fire hydrant or not. (ie. red curb, signs, etc.)
- Within twenty (20) feet of a crosswalk.
- Within thirty (30) feet upon the approach of a stop sign, yield sign, flashing signal, or other traffic control device (not including speed limit signs).
- In a marked bus stop.
- In front of a private driveway. (This includes the resident themselves.)
- Within an intersection or roundabout.
- On the roadway side of a lawfully parked vehicle or trailer (double parking).
- Across any portion of a sidewalk.
- Wherever there is a prohibition designated by the city by signs or red curb painting.

Police may issue a warning or a notice of violation. The owner of the vehicle may pay the fine online, in person, or by mail. Current fines are as follows:

- \$200.00: Disabled/Handicap Parking Violation
- \$80.00: All other Parking Violations
- \$20.00: If paid within 14 days; and,
- \$40.00 If paid between 15 and 30 days.

The City has made these changes to encourage compliance, not to create a parking revenue source. If we do not have to issue one citation, that would be success. However, if violations are observed, the City will be issuing notices of violation, as well as towing vehicles that are continually observed in violation.

Please refer to City Code, Title 6, Chapter 2 and Title 7, Chapter 1 for specifics not addressed in this article.

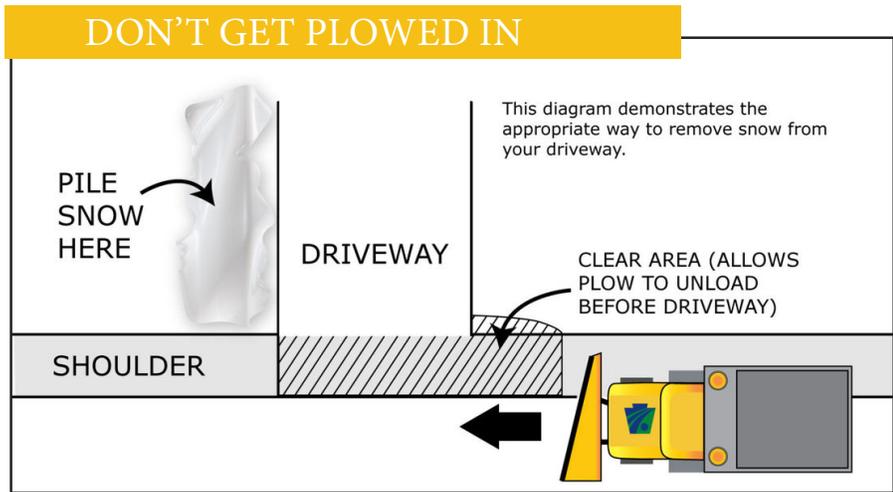

FREEZE WARNING

Keep your pipes flowing during the winter!
Colder temperatures are here and that means your pipes are at risk of freezing. Here are a few tips to prevent frozen pipes.

1. Keep the heat up to at least 65 degrees.
2. Open cabinet and closet doors along exterior walls that contain water pipes.
3. Keep pipe water moving by allowing water to drip or run slowly.

SENIOR LUNCH

In the hustle of this busy season be sure to save Wednesday, Dec. 11th at 11:00 a.m. for the Senior Luncheon. A delicious lunch will be provided by the City followed by a Christmas carol sing-a-long. Bring a small gift for a rousing game of Bingo! Come and feel the Christmas Spirit!

When shoveling, pile snow down-stream of snowplow operations. This will clear an area, or pocket, for the plow to drop the snow (see diagram).

Please **DO NOT** throw snow into the public street. It is against the law and creates additional hazards for drivers.

A snow removal guide and the City's snowplow priority map can be found at www.nslcity.org.
