## Letter from the Mayor

Dear Residents,

Our city ended its fiscal year on June 30th of this year. I am pleased to report that the city is in excellent financial condition. The city runs a variety of enterprise and special purpose funds, which all performed well over the last year. Of particular importance is the city's general fund, where we maintained our rainy day funds and were able to perform needed work on many of our roadways. Of particular note was the widening and repairing of Center Street, including upgrading aging water lines and other utility lines.

The city's water fund is recovering after dealing with some extraordinary additional expenditures needed to deal with contamination in some city wells. Although additional improvements will be required in the future, we are optimistic that we have charted a course to deal with our water needs. Many of you have noticed the new secondary basin near the bottom of Eaglewood Drive. This is part of a project where the city has negotiated the purchase of 800 acre feet of secondary, or irrigation, water for some east side projects, including our golf course. This will enable us to divert the culinary water, which has been used for irrigation purposes, to help accommodate growth in the city in a more economical fashion than was originally planned, and expands our water source alternatives.

We are busy expanding recreational and park resources throughout the city. Over the last year, the city has completed Tunnel Springs Park, on the east side of the city, and expanded the trail system at the Wild Rose Trail Park. We are currently working on a new park at the south end of Foxboro, a small expansion at Hatch Park which will include a gathering area near City Hall, and converting the Springhill landslide area into a natural open space park. These new parks are funded from growth impact fees paid by builders of new homes, as well as funds generated by the Recreation and Park Tax, approved by the citizens in a 2009 referendum.

My thanks go out to the city staff, the city council, members of our other committees, as well as all of our citizens for their efforts in making the City of North Salt Lake a great place to live and do business.

Appreciatively,

Len Arave  
Mayor, North Salt Lake
