ADDITIONAL INFORMATION

(attach addition sheets if needed)

1. Please explain the project and proposed investigation techniques:

2. Estimated start date: _____

3. Estimated completion date: _____

4. Does the investigation require access to or via additional property not owned or under contract by the applicant? _____ Please provide the owner's contact information and attach proof of approval for access:

Name: _____

Address: _____

Phone: _____ Email: _____

For Office Use Only

Conditions of Approval: _____

Bond Required: Yes No Bond Amount: _____

Reasons for denial: _____

Notice to All Applicants

PLAN SETS SUBMITTAL: (plans, specifications, reports): PDF Copy – Hard Copies Not Required.

APPLICATION REQUIREMENTS

- Complete and signed application form
- Statement of Qualifications for Geologist and Engineer Consultants
- SWPPP/NOI, where required by scope of disturbance

PLAN SET REQUIREMENTS

- A vicinity map;
- The property lines and dimensions and bearings;
- The location of any existing buildings or structures on the property or within fifty feet (50') of the property boundary;
- Existing vegetation;
- Accurate topography, including a minimum of one hundred feet (100') outside project boundary;
- The elevations, dimensions, locations, extent, and slopes of all proposed land disturbance activities shown by contours or other means;
- Locations of proposed test pits, bores, trenches, or other excavations;
- Known or probable locations of geologic hazards;
- The estimated start and completion dates for the proposed land disturbance activities and proposed land disturbance activities schedule and permit term;
- Temporary construction entrance and exit plans;
- Signed, written authorization from the property owner giving the applicant permission to access the property and perform the proposed land disturbance;
- Any additional plans, drawings, or calculations required by the city engineer;
- Grading plan for the proposed land disturbance activity and site;
- Drainage plan for the proposed land disturbance activity and site;
- Erosion and sediment control plan for the proposed land disturbance activity and site; and
- Revegetation plan for the proposed land disturbance activity and site.
